

Departament	Echipa	nr max de studenti	Dscrierea pe scurt a locului de practica – activitati specifice	Competente recomandate
IT	Busines Intelligence & Enterprise Resource Planning Unit (BI&ERP)	2	Implementare/automatizare procese companie Dezvoltare platforma Data Warehouse si a sistemelor de raportare	Certificat de competente in programare (emis de ETTI)
IT	Business Solutions Unit - Commercial Analysis Team	2	Analiza / definire solutii / inginerie solutii pentru aplicatiile solicitate de clientii interni ( vanzari, financiar, tehnic ...)	Certificat de competente in programare (emis de ETTI)
IT	Billing and Convergent Services Unit	2	Dezvoltare / implementare aplicatii de taxare/facturare	Certificat de competente in programare (emis de ETTI)
Technology	Operation and Maintenance - IT Services Operations / CRM Support	1	Support Tehnic aplicatii CRM & Sales Debug & Create PL/SQL Code, Java or specific Technical Tools	Certificat de competente in programare (emis de ETTI)
Technology	Operation and Maintenance - IT Services Operations / CRM & Online	3	Administrare aplicatii online (weblogic,jboss, springboot, etc) Automatizare task-uri- scripting Shell, Python, plsql Asigurare support level 2. Activitati Dev Ops: docker, Rundeck	Certificat de competente in programare (emis de ETTI)
Technology	Operation and Maintenance - IT Services Operations / Mediation	1	Administrare aplicatii Mediation Automatizare task-uri operationale - scripting Shell, plsql	Certificat de competente in programare (emis de ETTI)
Technology	Operation and Maintenance - IT Services Operations / Billing Operations Team	2	Administrare aplicatii billing (OBRM, ICON, IntegRate) Automatizare task-uri operationale - scripting Shell, plsql Documentare proceduri si actualizare documentatii Implicare in L2 support	Certificat de competente in programare (emis de ETTI)
Technology	Operation and Maintenance - IT Services Operations / ERP & BI Operations	2	Supervizarea si administrarea aplicatiilor Oracle Enterprise Business Suite, Data Warehouse si a sistemelor de raportare. Suport tehnic si functional pe aplicatiile administrate. Monitorizarea proactiva a aplicatiilor si a proceselor implicate	Certificat de competente in programare (emis de ETTI)
Technology	Operation and Maintenance / Access Operations	2	RAN Operations – administrarea sistemelor OMC + implementarea actiuni specifice – domeniul RAN TRANS Operations – administrarea sistemelor NMS + operarea si intretinerea retelei de transmisiuni core Technical ENV – gestionarea domeniului ENV atat in zona datacenter cat si site-urile RAN Field Operations – monitorizarea activitatii MSP in zona field (incident Management + mentenanta preventiva)	
Technology	Operation and Maintenance - IT Infrastructure Operations/ Office Infrastructure Team	1	Administrare sisteme si servicii de infrastructura (email,active directory, adfs, lync, system center) bazate pe tehnologii Microsoft Administrare appliance-uri Netapp,BlueCoat,Juniper Automatizare task-uri- powershell Suport tehnic si functional	Certificat de competente in programare (emis de ETTI)
Technology	Operation and Maintenance - IT Infrastructure Operations / Data Repository Infrastructure Team	1	Administrare baze de date Oracle,SqlServer si PostgreSQL	Certificat de competente in programare (emis de ETTI)
Technology	Operation and Maintenance - NOSC	2	Teste de validare a unui nou software pentru echipamentele Huawei folosind tehnologiile 2G, 3G, 4G	
Technology	Service Quality Efficiency Management - Service Management Center - mobile	1	activitati legate de procesele de Service Assurance (troubleshooting, performance, quality loop) - Servicii de comunicatii mobile (voce, date)	
Technology	Service Quality Efficiency Management - Service Management Center - home	1	activitati legate de procesele de Service Assurance (troubleshooting, performance, quality loop) - Servicii de comunicatii fixe si TV (internet FTTH, FTTB, VoIP, CATV, DVBC, DTH)	
Technology	Service Quality Efficiency Management - Operational Performance	2	Technical Performance – calcul & raportare indicatori de retea , analiza date, corelare, data mining , creare dashboards performanta operationala; raportare catre autoritati si Grup; interconectari Big Data <-> ecosistem performance TD, technology-centric BI / Business analysis Quality – proceduri, procese, design de modele operationale cu business ownerii Analize tehnico-economice, imbinand tehnicul cu financiarul – business cases, cost per trafic/site, bugetare opex/capex, plan strategic, initiative transformare	
Technology	Infrastructure Expansion - RAN Engineering Group	2	Proiectarea si dimensionarea retelei de acces radio 2G 3G 4G	

Technology	Infrastructure Expansion - Radio Optimization Group	2	Optimizarea rețelei de acces radio 2G 3G 4G	
Technology	Infrastructure Expansion - Management	1	Tehnici și procedee specifice activității de Project Management cu aplicații în domeniul Telecom (radio access)	
Technology	Infrastructure Expansion - Transmission Engineering Group	2	inginerie DWDM & fibra optica Planning radio WiMAX	
Technology	Engineering - Development & Innovation	2	Dezvoltarea de aplicații în aria Smart City care vor fi folosite ca proof of concept pentru domeniile din care fac parte	Certificat de competențe în programare (emis de ETTI)
Technology	Engineering - Development & Innovation / Multimedia Services Group	1	Proiect specific: Virtualizarea nodurilor în rețeaua unui furnizor de servicii	Certificat de competențe în programare (emis de ETTI) Linux + programare/scripting Python Securitate – firewall APIs – REST CCNA2
Technology	Engineering - OSS Integration & Development	1	Dezvoltare/administrare aplicații informatice cu profil tehnic	Certificat de competențe în programare (emis de ETTI)
Technology	Engineering - Core Network	2	Centrale de comutație circuite , Voip /Voite ( IMS)	
Technology	Engineering - Ip Services & Network Resilience	3	Inginerie IP	Certificat de competențe în programare (emis de ETTI)
Technology	Engineering - End to End Architecture	1	testare și validarea performanțelor telefoanelor mobile. Determinarea interacțiunilor telefoanelor cu rețeaua mobilă, realizarea de configurații pe tel mobile, depistarea și documentarea problemelor.	
Technology	Convergent Solution - Customer Technical Support Service	2	Proactively detect, record and solve or follow-up resolution of end-to-end fixed services quality problem according to contractual SLA and ORO's quality standards. Administrate, Operate and adapt CTSS specific tools. Diagnosing services faults by effectively usage of software diagnostics and other network/product utility programs. Analyzes customer/network change requests, schedule and perform them with minimum operational risk and cost. Follow up and solve the recurrent incidents.	
Technology	Convergent Solution - Project Delivery Management	2	Check site readiness and prerequisites for service delivery. Launch, monitor and close implementation process. Analyze, decide and solve issues during implementation process. Get lessons learned and share experience.	
Technology	Convergent Solution - Convergent Solution Factory	2	Accountable for solutions design and E2E delivery in agreed OLA Real time analysis and coordination of assigned customer implementations Initiates escalation process in case of detected performance degradation Perform OLA monitoring Involved in new solution definition for corporate customers
